

State of Texas Certified Cybersecurity Training

House Bill 3834 requires cybersecurity certification
for all state and local Texas employees and
contractors by June 2020

Statewide Training Requirements

Annual training must be completed by June 14, 2020 by the following employees:

State Agencies: Employees who use a computer to complete at least 25 percent of the employee's required duties and elected or appointed officers of the agency.

Local Government Entities: Employees who have access to a local government computer system or database, and elected officials.

Contractors of state agencies who have access to a state computer system or database must complete training during the term of the contract and during any renewal period.
